

**Amendments to the Specification**

On page 13 of the specification between numbered line 6 "Example 1" and numbered line 7, "Granulate of Paroxetine mesylate for tablet production", insert the following new paragraph:

In this Example the calcium hydrogen phosphate anhydrate (a.k.a. anhydrous dicalcium phosphate) used is A-TAB®, a product made by Innophos, Inc of Cranbury NJ, which product grows into rhombic plate shaped crystals mostly between 15-30  $\mu\text{m}$  in length and form agglomerates of larger crystals.
